

SAFESCAN 6185

SOFTWARE UPDATE INSTRUCTIONS

PLEASE NOTE: The update consists of 2 parts: 1) Firmware update of the Safescan 6185. 2) Currency software update. Both updates **MUST** be performed, in the order as described below.

1. FIRMWARE UPDATE

1. Ensure that your Safescan 6185 Money Counting Scale is powered OFF
2. Run the update tool **MChip_HIDBootLoader.exe** on your PC.

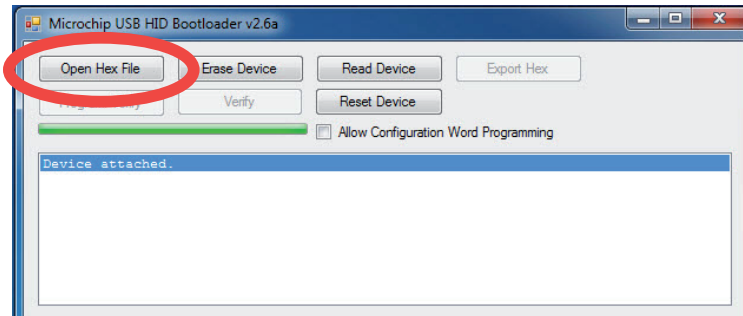

The software will show that your Safescan 6185 is not connected.

3. Connect the Safescan 6185 to the PC with a Micro USB to USB cable (supplied with the device).

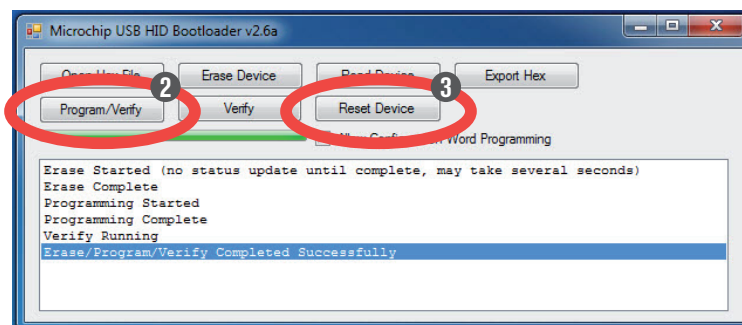

4. Take an object with a sharp point such as a pencil or the end of a paper clip. Use this to push the reset button (1) at the back of the device. Hold the reset button.
5. Press and hold the **[ON/OFF]** key  on the device. Note that the display will remain blank.

6. Release the reset button and subsequently release the **[ON/OFF]** key. The software tool will now show that the device is connected to the PC.

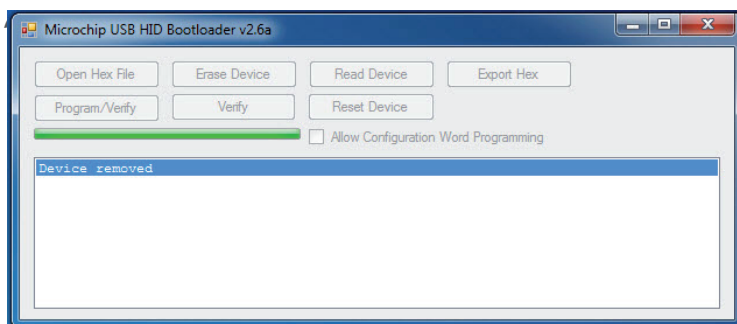

7. Click **[Open HEX file]**. A searchbox will open. Locate the firmware file (*extension: .hex*) on your PC (this is part of the update package), select it and click **[Open]**.

8. Click **[Program / Verify]** (2). The firmware will now be updated, the software will show the progress.

9. When updating has finished, click **[Reset device]** (3). Your Safescan 6185 will be switched off, the message

10. Power on the device. It will show a new firmware version number in the display.

2. CURRENCY SOFTWARE UPDATE

1. Unzip the Currency Updater Setup which is part of the update package.
2. Install the update software by doubleclicking the file **CurrencyUpdater6185Setup_x_x_x.exe**.
(x.x.x represents the software version number)

3. The software will be installed on your PC. Follow the installation steps shown on the screen.

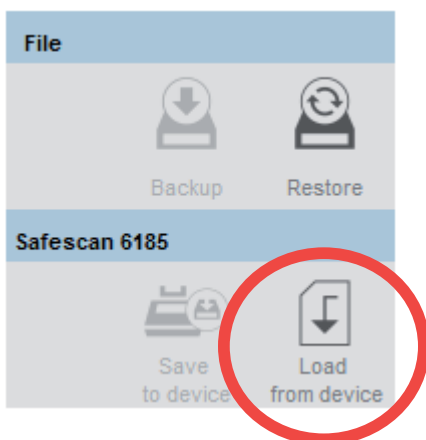

When installation has finished, double click on the shortcut on your desktop to start the software.

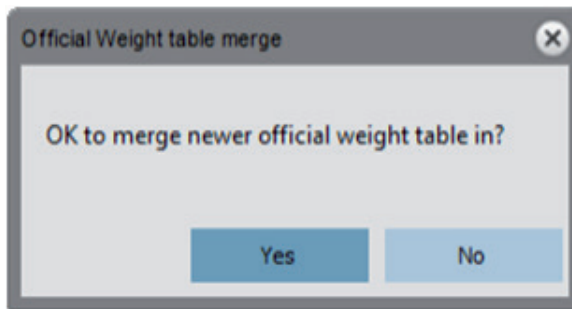

4. Click on **[Currencies]**

5. Connect your Safescan 6185 to your PC with the Micro USB to USB cable (see 1.3). Switch on your device by pressing the **[ON/OFF]** button  .
6. Click **[Load from device]**. During this procedure, the display on your Safescan 6185 will show "Locked".

7. If the software detects that the weight table of your device is not up to date, a window will pop-up.

Click **[Yes]** if you want to update your Safescan 6185 to the latest currency definitions.

8. Click **[Save to device]** to save the updated weight table to your Safescan 6185.

Your Safescan 6185 is now fully updated.
