165-S

COUNTERFEIT DETECTOR

TOP-OF-THE-LINE COUNTERFEIT DETECTION

The Safescan 165-S uses the latest counterfeit detection technology to scrutinize seven advanced security features built into today's currencies: infrared ink, magnetic ink, metallic thread, color, size, thickness and watermark. This technology is so reliable it will detect double bills, half bills, and even the superdollar, the most sophisticated counterfeit bill ever created. In just half a second, you'll know with 100% certainty whether the bill in your hand is genuine or counterfeit—and your customer will know, too, eliminating unnecessary discussion.

- 100% counterfeit detection (www.ecb.eu, www.bankofengland.co.uk)
- 7-point automatic counterfeit detection: Infrared, Magnetic ink, Metallic thread, Watermark, Size, Thickness and Color
- Suitable for detection of current and new banknotes series
- Also suitable for the new USD 100 banknote
- Counterfeit banknote alarm with visual and audio alert
- Money counter showing quantity and value
- Insert GBP, EUR and PLN in any direction
- Checks 9 currencies: GBP, EUR, USD, CHF, PLN, SEK, NOK, DKK and HUF
- Large and clear LCD display
- Compact size
- Free currency updates
- Currency update: USB and microSD
- Verification speed: < ½ second

Verifies up to 9 currencies

Shows quantity and totals

Suspected banknote alarm with visual and audio alert
