

## SAFESCAN 1200

# COIN COUNTER AND SORTER

The robust Safescan 1200 GBP coin counter is able to count, sort and batch all denominations of coins. Thanks to the high speed (220 coins per minute) coin counter and the sizeable input options (300-500 coins at a time) you can cash up efficiently. Moreover, you can effortlessly prepare a bank deposit thanks to the adjustable batch function. Practical and simple operation ensure that you can quickly and efficiently gain all the information you need from the contents of your till at the end of the working day.

- Counts, sorts and batches 220 coins per minute
- Hopper capacity of 300-500 coins
- Add function to identify value
- Total value and quantity per denomination
- Autostop when the coin tray is full
- Quick and user friendly
