

2850

High-Capacity Bill Counter

Rapidly count your bills

Safescan's 2850 rapidly counts single-denomination bills while simultaneously checking all bills for counterfeits using up to three different security features. The 2850 is perfect for counting large stacks of sorted cash quickly. Thanks to its smart design, high-definition touch screen and intelligent features, your cash management will be easier, faster and more accurate than ever.

- Banknote counter that counts sorted bills for all currencies
- Counts up to 1,500 bills per minute
- Rapidly counts bills thanks to its large hopper capacity and continuous feeding
- Checks bills for counterfeits using up to three security features: Ultraviolet (UV), Magnetic (MG) and Size
- Stops counting and presents an audio and visual alarm when a suspected bill is detected
- Visual & Audio alarms when suspected counterfeit is detected
- Adds up the number of counted bills across different runs with the add function
- Calculates the value per denomination with the calculator function
- Creates equal quantity stacks of bills using its automated batch function
- Easily operated thanks to high definition touch screen with multi-lingual interface and quick menu
- Regularly displayed maintenance reminders promote periodic cleaning and ensure a long service life.

Displays a detailed message when a suspected bill is detected

High definition touch display with multi-lingual interface and quick menu
