

Safescan 6165 Money Counting Scale

Cash up in just minutes

Save time and simplify your cash management. The Safescan 6165 rapidly value counts coins and bills with the highest level of accuracy. Within a minute, you will know the exact value of your cash drawer, and have a complete overview ready to add to your administration. Perfect for when you need to cash-up quickly. Thanks to its adaptive design, large display and user-friendly interface, your cash counting will be easier, faster and more reliable than ever.

- Money counting scale that value counts sorted coins and bills
- Counts loose coins and bills, coin rolls, coin bags and bundled bills
- Counts old and new versions of the same bill denomination together
- Can count your entire cash drawer in just a minute when combined with our custom accessories
- Counts added coins and bills until the cup or stack is removed
- Automatically goes to the next denomination when the cup or stack is removed
- Shows a complete overview of counting results per denomination
- Can deduct the starting value from the end count to calculate day totals
- Link date and timestamps to counting results with its real-time clock
- Calibrate a second coin cup from your own cash drawer to speed-up counting process
- Easily operated thanks to its intuitive user interface and large 4.1 inch LCD display
- In other documentation this model may also be referred to as the Safescan 6165 G3
