

MCS MONEY COUNTING SOFTWARE

AUTOMATE YOUR CASH PROCESSING FROM START TO FINISH

Safescan's 6185 money counting scale, automatic coin and banknote counters let you count your entire till in less than two minutes—but then you need to process those results. Connect your 6185, 6165, 2465-S, 2665-S, 2685-S or 2985-SX to our MCS cash management software and let it do the heavy lifting for you. As soon as your Safescan 6165, 6185, 2465-S, 2665-S, 2685-S or 2985-SX has finished counting, you can export the details to the software and instantly view or print your results, broken down by denomination (for 6185 including customized and non-cash items such as vouchers, coupons and tokens), employee, and register for maximum insight. Want to see how today compares to previous results? Our MCS software stores all your past data, and advanced filtering options let you zoom in on the features you're interested in. You can even export the data for further use in your automated accounting process.

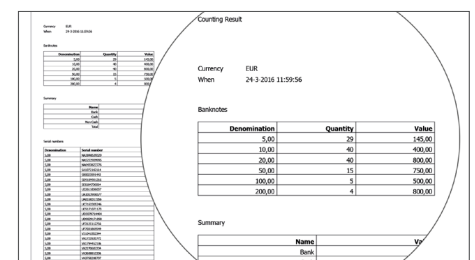

- Software for processing counting results
- Works with Safescan 2465-S, 2665-S, 2685-S, 2985-SX, 6165 and 6185
