

285-S COUNTERFEIT DETECTOR

COMPACT VALUE COUNTER WITH MULTIPLE BANKNOTE FEEDING

The Safescan 285-S combines mixed-note counting and counterfeit detection in one compact device. The 285-S is ideal for businesses that need fast, error-free counting for multiple currencies and proven 100% accurate banknote authentication. It provides quick, easy and comprehensive verification of several currencies. Eliminate human errors and customer confrontations with 100% accurate authentication which features seven-point detection, including: UV, infrared profile, magnetic properties, metallic thread, ink spectrum, paper size and thickness. Its operation is fast and simple! No need to feed the banknotes separately. Insert banknotes in any direction and in less than 0.5 seconds, authenticity is checked.

- 8-point counterfeit detection, UV, MG, MT, IR, ink spectrum, color, size, thickness
- Verifies and counts up to 250 banknotes per minute
