

TA+ Software

ADVANCED TIME ATTENDANCE SOFTWARE

ALL THE TA SOFTWARE'S RICH FEATURES

Our TA+ software includes all the real-time reporting, overview and management tools in the standard TA software that comes with every Safescan TA terminal. Generate instant, up-to-date fire roll-call reports; create daily, weekly, monthly and periodic reports per department and employee; track job costing, hours, overtime, and absences; design employee schedules; export your data to Excel or your preferred payroll program—all with an unlimited database, automatic backups and support for multiple terminals.

- Daily / weekly / monthly / periodic reports per department / employee
- Over-time reports
- Incidents (vacation, doctor, sick leave etc.)
- Project / Work codes with color codes
- Fire-Roll-Call report / real-time attendance list
- Vacation and annual work time account
- Planning and Attendance logs in Grid View
- Quick planning with drag & drop
- Vacation planning
- Shift planning 24h
