# 2885-S
BANKNOTE COUNTER
ADVANCED COUNTING WITH 7-POINT COUNTERFEIT DETECTION

The Safescan 2885-S is your ultimate tool for easy and effective counting and validating of SGD banknotes, offering professional-grade mixed-banknote counting and counterfeit detection. Featuring CIS technology, it will value-count up 10 currencies. Even the most advanced currencies, such as those printed on polymer, those that have transparent windows and those whose denominations have nearly identical dimensions. Designed for high-volume use, the 2885-S is ideal for businesses that need fast, error-free counting for multiple currencies and proven 100% accurate banknote authentication.

- Counts up to 1.500 banknotes per minute
- 10 default currencies for checking and counting
- Counts sorted banknotes for all currencies
- Counts unsorted banknotes for SGD, HKD, USD, EUR, GBP, CAD, MXN, CNY, MYR, JPY
- 100% counterfeit money detection (www.ecb.eu, www.bankofengland.co.uk)
- 7-point counterfeit detection: ultraviolet, magnetic ink, metallic thread, infrared, image, size and thickness
- CIS detection technology

- Automatic currency and denomination recognition
- Supports serial number scanning (HKD, USD, GBP, EUR, CNY)
- Counting modes: mix, sort and sheet counting
- Sheet counting option: free count without counterfeit detection
- Add function and batch counting
- Auto-start and stop function
- Compact design with small footprint
- User-friendly front panel
- Export counting results to printer or money counting software
