

30 - BULK COUNTERFEIT DETECTOR PEN

VERIFY BANKNOTES AT ANY LOCATION

In just two seconds, the Safescan 30 counterfeit currency detector pen will tell you whether a banknote is fake or genuine. Simply mark the banknote and watch: if the ink turns dark, the note is likely a counterfeit. Perfect wherever you need fast, portable verification, such as at markets and events or in taxis and delivery vans.

- Immediate verification
- Suitable for testing all currencies
- Dark marking = counterfeit
- Clear marking = genuine

Dark mark: Suspected counterfeit banknote

Light mark: Genuine banknote

Suitable for all currencies
