

2610

BILL COUNTER

FLEXIBLE, MAXIMUM-SPEED BILL COUNTING

The Safescan 2610's spacious hopper can hold 500 bills of the same denomination, and three adjustable speeds provide you with maximum counting flexibility, reliability and efficiency – up to 1,500 bills per minute. The 2610's front-loading hopper makes it possible for you to keep adding bills for continuous counting—ideal in environments where time and accuracy are of the utmost importance. The 2610 not only counts the number of bills but even calculates the value per denomination.

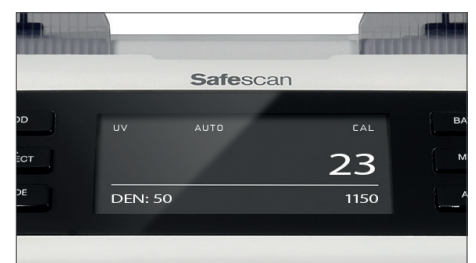

- Counts and verifies up to 1,500 bills per minute
- Adjustable counting speed
- 2-point counterfeit detection: UV and size
- Batch counting and add function
- Auto start and stop function
- Counting modes: sort, value count calculator of sorted bills and sheet counting
- Large LCD display with clear layout
- Alarm when suspected counterfeit bill has been detected

Adjustable counting speed - 800, 1,200 or 1,500 bills per minute

Batch function, to create fixed series of a preset number of bills

Calculates the total number and value of counted bills per denomination
