

70 UV COUNTERFEIT DETECTOR WITH 3-POINT DETECTION

Every modern bill has integrated UV security features that only show up under ultraviolet light at a certain frequency. The Safescan 70 is designed specifically to help you verify these features and identify potentially counterfeit bills. The Safescan 70 not only reveals the integrated UV security features in modern bills; it also instantly illuminates the UV security features built into today's credit cards, passports and other ID documents, as well as UV ink applied to protect valuable items from theft or confirm event admission.

- Powerful 9W UV lamp
- Reflector for powerful UV light quality
